Page 65 The Placement Counseling Service section should read as follows:

PLACEMENT COUNSELING SERVICE AND EMPLOYMENT

The Placement Counseling Office aids students and graduates in the job search process to obtain gainful employment by providing job market information. It advises students regarding resume preparation, job interviews and job offers. It is also responsible for the development of relationships with employers and referrals of students to prospective employers. The institution provides placement and job search assistance. However, it does not make any guarantees of employment or salary upon graduation. Students are encouraged to research the requirements applicable to obtaining employment in the field of their chosen program. Certain programs are designed to provide the educational prerequisites students must complete in order to obtain required professional licensure or certification in the state or territory where the institution is located (Puerto Rico or Florida, as applicable). Students are responsible for determining whether graduation from these programs will qualify them to obtain professional licensure or certification, or to work in the field, in other geographic areas where they live or intend to work.

Page 68 In the Admission and Transfer Requirements table for Undergraduate Programs, the following information was included:
