Page 4 in Catalog Addendum of October 4, 2018 the description for course BUAD 1020 should read as follows:

BUAD 1020: Business Information Systems: 3 credits

In this course, students will analyze the fundamentals of business information systems and their impact on contemporary businesses. They will examine the basics of business intelligence, e-commerce, information management, and decision support systems (DSS). In addition, they will evaluate ethical and social aspects in the use of information systems.

(Pre-requisite: ITTE 1031L)
